

# Drivers wanted!

Are you **dedicated to the welfare of animals** and looking for **part-time, contract employment** that is **driven by a mission**?

Are you a mature, responsible team player and a **safe driver** who **thrives in a fast-paced environment**?

Do you have **sheltering or animal handling experience**?

Are you **willing to travel** for several days or a week at a time?

Having the right people in the right roles determines whether or not we meet our goals at the **ASPCA**<sup>®</sup>, and what we do every day helps improve the lives of animals. **Contracted part-time drivers** for the **ASPCA Animal Relocation Initiative** play a crucial role in helping us balance the animal population at both source and destination shelters and enable shelters to save more lives!

In the coming weeks we will be seeking outstanding and upbeat individuals who are willing to go the extra mile and who understand the importance of following best practices in animal transport. Successful contractors:

- demonstrate commitment to improving the lives of animals;
- act as a team and play their part to keep the work moving;
- seek to elevate themselves and our team by maintaining high standards and raising expectations;
- and ultimately drive towards impact and making change for animals.

Available routes are located in the east, southeast and mid-west. If the opportunity to be a part of a support team at the ASPCA motivates you, contact [relocation@aspca.org](mailto:relocation@aspca.org).
