

We are hiring!

Who We Are:

The Florida Keys SPCA (FKSPCA) is a private, nonprofit, open admission shelter dedicated to saving lives through mission driven programs. The FKSPCA is the only open admission animal welfare organization in the lower and middle Florida Keys. We accept every animal that comes to our door regardless of health or temperament. The FKSPCA commits to finding a home for every adoptable pet and expends all resources upon recommendations of the veterinarian to treat animals that need our help in order to save as many as we can. The FKSPCA serves over 2,000 animals each year through adoption, cruelty investigation, animal control, and clinic programs. The FKSPCA is searching for a DVM who can lead the medical department in its part in our lifesaving mission by expanding free and low cost spay neuter programs as well as wellness programs to keep animals with their families as opposed to surrender.

Who We Are Looking For:

We are seeking an experienced veterinarian to lead, expand and grow FKSPCA medical programs to include spay neuter for shelter animals as well as public pets, routine and preventative wellness services and emergency care for animals served through our animal control department. Applicant should have experience with shelter medicine, spay neuter, dentistry, preventative health care and internal medicine. Excellent communication is a must as well as dedication to the mission of the FKSPCA. This position does involve some overnight on call shifts for animal control emergencies only and forensic veterinary medicine is a plus.

The candidate must be eligible to obtain a license to practice veterinary medicine in the State of Florida. The FKSPCA offers an excellent benefits package, including full medical, voluntary dental, vision and life insurance, two weeks of paid time off and 7 paid holidays the first year.
