

# Florida Animal Control Association

## ***FACA Needs Your Help!***

Hello Everyone,

We need every animal control agency to participate in a brief survey. Please click on the below link as soon as you can, we promise it will only take a few moments: [Click HERE Now \(report.mnh.email\)](#)

We are requesting answers to the following questions, but please click on the survey link above to provide them, please do not reply to this email. Thanks:

Do you have language in your animal code regarding tethering / anti-tethering?

If so, can you provide a link to your code and indicate the section?

Do you feel the tethering language has improved animal welfare in your community? If so, how?

Any downsides to your tethering / anti-tethering language?

Did you offer a grace period to your community prior to enforcement?

Do you have programs in place to assist owners in terms of fence building, etc?

Have owners relinquished pets because they cannot afford any other means of confinement?

Anything else you want to share?

Thanks in advance for your participation!

Sincerely,

The FACA Board of Directors
