Q3 Does your agency use an inventory management system for food and drugs? **Yes**

Q4 If so, what system do you use?

Any Point of Sale system..i prefer micros and PosiTouch

Q5 What, if any, challenges do you have with your current system?

Initial set up is time consuming but with smaller inventory it's easily done. We use it for 100,000+ items ranging from beverages, alcoholic and non, cigars, food and apparel. We also program recipes for each item (mixed drinks, complete dinner plates) down to the milligram, oz, etc, and import sales as well as purchases from vendors abd between departments to analyze, usage, loss, overages, etc. The systems also incorporates spoilage, spillage and comps for overall weekly, monthly, quarterly and yearly P & L. Hope this helps.
