

Safety Net & Admissions Manager

Are you excited about the new direction of companion animal welfare that prioritizes keeping people and their pets together? Peggy Adams Animal Rescue League, recognized for its 97-year history of saving lives, its continuous innovation, and commitment to the community, is seeking a progressive individual to lead and expand its Safety Net Program.

Leading a team of five and providing critical safety net support for more than 20,000 pets and their people annually, the Safety Net & Admissions Manager will develop and/or coordinate strategies, goals, structure, and procedures of all related intake prevention outreach (including Peggy's Pantry, veterinary medical support, pet behavioral support, and other resources) to keep pets in their homes, as well as the admission of animals that need temporary shelter, care and/or new homes.

We hope you will consider joining the Peggy Adams team and help us continue to expand our community resources to help lost animals get home, keep cats and dogs with their families, and place sheltered pets with foster and adoptive homes faster.
